

Agenda Item: CA-c
Meeting Date: April 11, 2022

Subject: Resolution 22-30, a Resolution Concerning a Reduction in the Amount of Certain Residential Building Permit Fees During the Month of June 2022.

Presenter: Jennifer Krieger, AICP, Community Development Director

Background: Annually, to encourage residents of Dacono to make improvements to their residential properties, the City Council temporarily reduces certain fees associated with issuing residential building permits during the entire month of June. This fee reduction includes application fees, plan review, and inspection fees. Eligible projects include the alteration, repair, or improvement of existing residential structures and the construction, alteration, repair, or improvement of accessory structures associated with existing homes, such as garages, additions, carports, sheds, and fences. Payment of use tax still applies.

Program guidelines require all necessary permits must be obtained before the start of the project. Any work completed without a building permit is subject to double permit fees. Work authorized under the permit must be completed by no later than September 30, 2022; otherwise, all applicable fees, including the full building permit fee and plan review fees, and inspection fees, shall be paid.

In 2021, the City issued ten “Almost Free” building permits.

According to the City’s contract with SAFEbuilt, during June, SAFEbuilt’s fees for associated residential services will be based on the reduced fee amount received by the City of Dacono.

Recommended Action: Staff is recommending approval of Resolution 22-30.
