

Completions starting soon at nearby Crestone site

Crestone anticipates beginning completions operations in early February, at the nearby Hingley 18H-A167 well pad. This location is south of County Road 10 and west of County Road 15, in the City of Dacono.

During this phase there may be an increase in noise and truck traffic. The sound walls will remain around the perimeter of the site throughout this activity.

Crestone plans to wrap up this phase of operations by the beginning of April, 2020.

CRESTONE PEAK RESOURCES

Crestone is committed to operating safely, responsibly and with minimal impacts on the communities where we work. We believe collaboration with our neighbors is an important piece of this, and encourage you to reach out to our team with any questions or concerns.
